

AJC présente la sélection
JAZZ MIGRATION #10

MARSAVRIL
 [NA]

NUBU
 SÉLÈNE

We are pleased to announce the Jazz Migration #10 selection !

This year again, more than 90 groups have expressed their desire to participate in Jazz Migration, proof that our program meets a real need among artists. Once again this year, over 100 committed programmers have selected the four Jazz Migration #10 laureates from among 14 finalists, demonstrating that festivals and venues continue to support emerging talent. The interest that the world of jazz and improvised music shows in this program remains strong!

And this year, for the first time, with MARSAVRIL, [Na], NUBU, and SÉLÈNE, Jazz Migration 10th selection, comprising 15 artists, is both gender balanced (each group includes at least one woman) and finally welcomes an overseas formation. Our commitments and the work done in these two directions for several years are bearing fruit.

The four winning groups are now entering a two-year process of artistic and professional support, complemented by a French and international tour in 2025. Thanks to Jazz Migration, these musicians will benefit from the support of a network of committed professionals.

Congratulations and welcome to them!

MORE INFORMATION

More information about Jazz Migration

Jazz Migration, created in 2002, is a program led by AJC, the jazz promoters network in France and in Europe, in order to respond to the issue of emergence and dissemination of young jazz musicians. Jazz Migration is today the only project for french emerging creative jazz musicians, that is offering the opportunity for them to build their careers, develop their skills and get their music out into the world.
