

AJC PRÉSENTE SA SÉLECTION

JAZZ #12 MiGRATION

FELSENMEER • MOUSTIK HATERZ
NENO • TORNADE SPECTRALE

We're happy to present the Jazz Migration #12 selection!

This year, more than 80 groups, supported by festivals and venues across France, applied to Jazz Migration. Over 100 programmers listened to the 15 finalist groups and selected four winners, once again highlighting, if any reminder were needed, that the emergence of jazz and improvised music relies in part on the commitment of festivals and venues, particularly those within the AJC network.

With **FELSENMEER**, **Moustik Haterz**, **NENO**, and **Tornado Spectrale**, the Jazz Migration #12 selection of 15 artists reaffirms its mission to support emerging new forms, with an average age of under 28.5. It also reflects, once again, the long-term and dedicated scouting work carried out by presenters deeply engaged in their local territories, with four groups coming from different regions.

The four winning groups are now entering a two-year artistic and professional development program, which will culminate in a French and international tour in 2027. This professional support will also be extended to the finalist groups, as well as to the musicians involved in our Initiales program, benefiting more than 50 artists in total. Through Jazz Migration, these musicians will receive support from a committed network of professionals.

Congratulations and welcome to them!

About Jazz Migration

Jazz Migration is a support program for emerging jazz and improvised music artists, led by AJC since 2002. The initiative has showcased 90 groups, comprising 320 musicians, by organising, among other activities, more than 1,300 concerts across France and Europe.

Since 2016, Jazz Migration has been providing its winners and finalists with tools to help them organise their careers and become more professional, aiming to support these musicians through a comprehensive pathway tailored to the specific needs of jazz artists.
